**AERO IMPEX, INC.** is an established United States Corporation with main offices in Orlando, Florida starting activities in 1995. Our management group has extensive experience in worldwide business endeavors including the sale and buying of petroleum and hydrocarbons, logistics and business development of derivative products. We will be glad to dedicate our human resources to achieve a mutually beneficial business outcome.

**AERO IMPEX, INC.** is dedicated and focused on developing new markets in the United States of America, Asia, Europe as well as other Countries such as India. The reach of our expertise ranges from raw material mineral products to products in mass consumption of fuel related products.

## Service

We provide the Knowledge and networking of our staff in establishing new business having to do with the purchase and sales with the best logistical support in the petroleum industry.

We work closely together with agricultural entities in the development of petroleum derived products in the care if crops to ensure viability of the same in accordance with United States requirement.

## Business

Always incorporate an initial contact with potential customer to determine their actual business needs. Based on such discussions we enter into mutually agreeable terms for the intended product All business transactions are conducted through international banking institutions based in the United States such as Chase Bank, Citibank, & other United States approved banks.

Payment Terms are usually included in and IMFPA with easily verifiable information from all entities involved in any transaction. Documents for every international transaction are included in an International Chamber of Commerce format such as (I.C.C 400/500/600), non-circumvention, non-disclosure and working agreement (NCNDA), irrevocable Master Fee Protection agreements (IMFPA).

All due diligence matters and must comply with United States regulations and procedures.
